Additional services for Copper-based Leased Line delivery	One-off charge added to the normal installation charge	
Delivery to wall socket	€40	
Quote Request		
Price of quote request response	€25 /pcs	

Elisa bills for responses to quote requests preceding the lease of connections in as much as the number of responses given to quote requests during a calendar month is more than double the number of connections ordered from Elisa by the telecommunications operator concerned over the same period. Payment is charged only in respect of excess responses. Responses to quote requests are without engagement. Delivery requires that capacity is free while the order is received. Availability inquiry on Elisa Carrier Services Online -system is free of charge.

Change, cancellation and hastening	
Hastened delivery	2 x the delivery charge of the product
Changing after confirmation of the order, effects for content or time of delivery	50% of the original delivery charge of the product (with delivery charges of the products to delivery)
Changing after confirmation of the order, no effects for the original delivery	€10 order processing fee will be added to the delivery charge of the product
Cancelling after confirmation of the order	50% of the delivery charges of the cancelled products
Cancelling after the product is delivered	Delivery charge and monthly fees from one month
Network information management, clearing/change	€20/connection
Fault measurements	
Service advise without cause	€185 / service advice
Cross-connection point information	€36

Starting fault measurement prerequisites service advice from lessee. Service advice without cause is chargeable. Cross-connection point information according to a separate contract. For more information please contact cscs@elisa.fi. The leasing of connections shall comply with the valid decisions and regulations of the Finnish Ministry of Transport and Communications and those of the Finnish Communications Regulatory Authority and with Elisa Corporation's general terms and conditions applying to the leasing of subscriber and fixed lines to telecom companies. The prices quoted in this tariff do not include any exceptions to the above ways of operating and terms regarding, for example, delivery times, any sanctions and special services relating to leasing. This price list is valid for the time being. The prices quoted are exclusive of VAT. Taxes and any other official charges valid at any given time will be added to final prices. The connections terminate on the customer's premises in the building MDF or similar locations such as the connection points in the PABX room. The prices quoted here do not include indoor network in properties.
